

Has this file hash been reported as malicious? Explain why or why not.

The file hash has been reported as malicious by 51 of 69 security vendors, with a community score of -297. It is identified as the malware Flagpro (threat label trojan.flagpro/fragtor), which is associated with the advanced threat actor BlackTech. The file masquerades as a legitimate Windows file, bfsvc.exe, but is unsigned, and sandbox analysis observed process injection, sandbox evasion, and command-and-control activity.
